

23/12/16

To whom it may concern,

We totally love the **Nightcliff Seabreeze Festival**.

It gives our school (Anula Primary) an annual opportunity to showcase our artwork and share it with the community. We get hundreds of our parents, kids and families out and about to go look at the kids work.

The whole event is a significant community gathering - seeing everyone you know, people you only see once a year - it has quickly become an established and eagerly anticipated event on our dry season calendar.

Nightcliff Seabreeze Festival provides us locals with our own Festival - as the Darwin Festival is so big it now attracts an international audience and indeed is run by interstaters.

**Please continue to support this wonderful community event**, it provides such a fabulous wide range of activities and opportunities along the foreshore on the Big Day that is FREE and accessible and then continues throughout the Festival Week. It brings everyone out of their houses and into the amazingly beautiful public space we share all along the coast of Nightcliff.

Yours sincerely
